To best select a necklace with your desired size, follow the below steps before comparing with the provided diagram and chart.

01.

Measure and cut a length of string or paper, ensuring you have some excess.

02.

Place it around your neck, adjusting until the desired length is achieved.

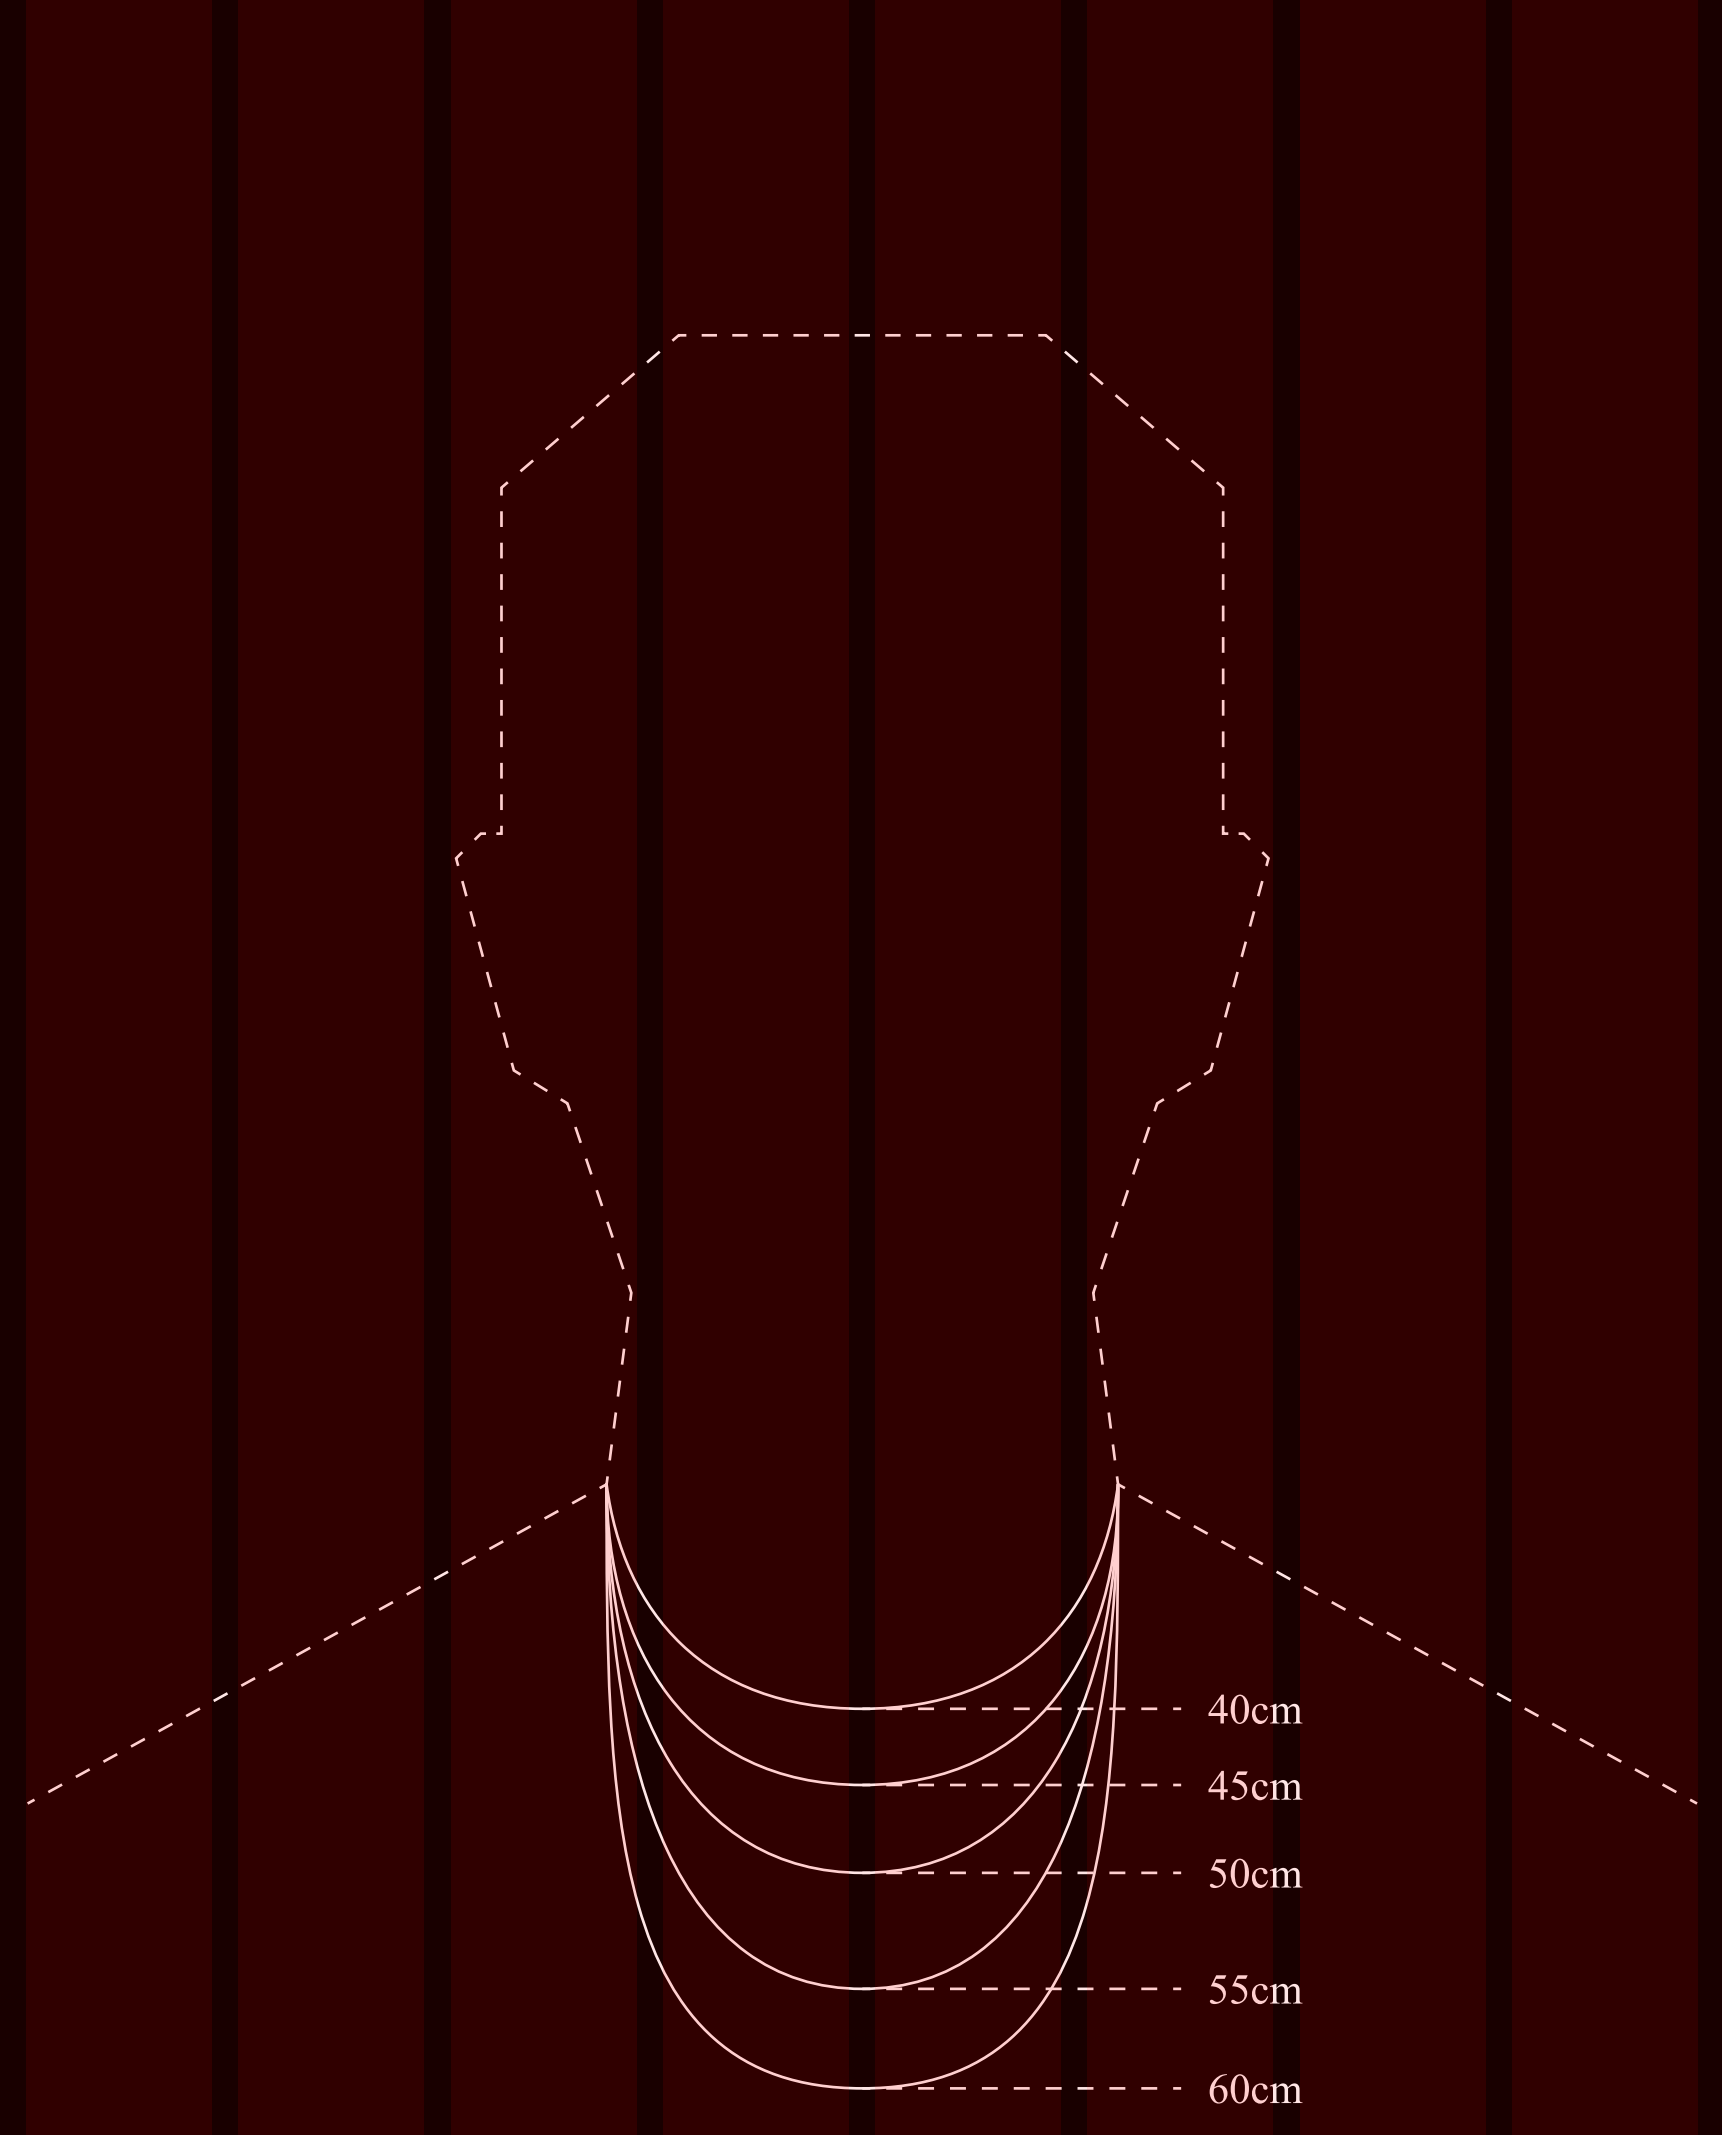

03.

Mark the string or paper at the point of overlap at the desired length.

04.

Lay the string or paper flat onto a table and measure the distance between the material's start and the mark made to get an exact measurement for your desired length.
